DISRUPTING THE TRADITIONAL

Your Proudly South African Retail Technology Innovation Specialist

We digitally transform retail and supply chain using intelligent software, data science (AI) and the Internet of Things (IoT)

Argility Technology Group

Argility Technology Group is a leading innovator of enterprise IT solutions for retail, supply chain and fleet industries.

30+

With over thirty years' experience and the wealth of IP generated during this time, we have the expertise and technology to digitally transform organisations on their journey to navigate the fourth industrial revolution.

We digitally transform organisations using advanced analytics, artificial intelligence (AI) and the Internet of Things (IoT), simplified by our deep expertise in large scale software integration and implementation.

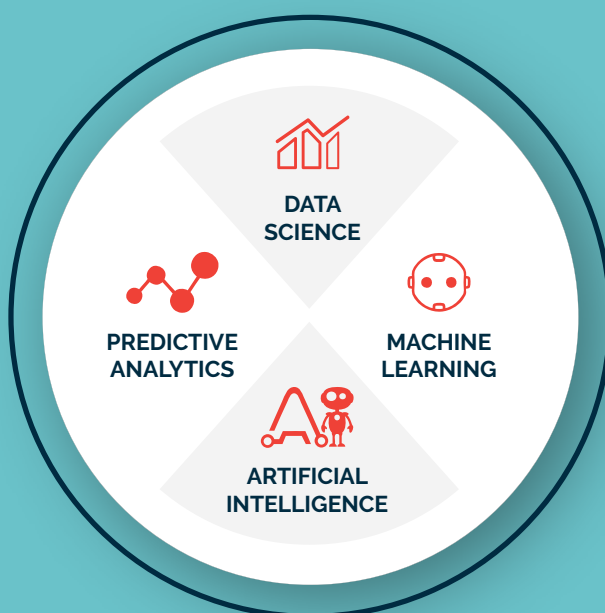

It's our mission to become a strategic technology partner and an extension of our customers business, not just another solution provider.

4

We aim to invest in a blend of established cash generative businesses with complementary proprietary software and disruptive startups with a focus on industry 4.0 technologies including, AI, IoT and Blockchain.

Our Ecosystem

- Point of Sale & Retail Management Systems
- Debtor & Contract Management
- Warehouse Management Systems
- E-Commerce

- Advanced Retail Analytics
- Internet of Things (IoT) Solutions
- Digital Asset Management & Location Technologies
- Fleet Management Systems

Meet Our Executive Team

Marko Salic

Chief Executive Officer

Joined Argility in 2005

Marko has in excess of 20 years' experience in the technology industry. He is currently leading Argility by shaping next level cloud solutions and innovation, in order to address the need for businesses to digitally transform, **manage digital disruption and stay relevant.**

Tanya Long

Chief Operating Officer

Joined UCS/Argility in 1989

Tanya has 30 years' experience within the industry. Tanya's vision is to ensure that the Argility Technology Group is filled with engaged, skilled and innovative individuals **delivering outstanding customer centric solutions**, whilst driving performance and processes within the group.

Richard Knight

Chief Financial Officer

Joined Argility in 2011

Richard is driven to create intangible success and creating a positive impact. Since his appointment as CFO in 2014, **Richard has gained a solid track record** of improving business performance and leading major projects from a strategic and financial perspective.

Eamon McCann

Chief Technology Executive

Joined UCS/Argility in 1988

Eamon boasts **35 years' experience** in the IT industry and has acquired in-depth knowledge that comes from working with many large retailers in **sub-Saharan Africa and Europe**. Eamon's vision is to draw on the **extensive experience and intellectual capital in the company** in order to establish Argility as industry leader in software solutions development.

Jaiprakash Kalyan

Managing Executive of Fleet Domain

Joined Argility in 1987

Jai has **+30 years' experience within the industry**. Jai has a wealth of experience in the **retail IT space across Africa**, leading and managing teams. Under Jai's leadership his team won **"Service Provider of the Year"** during 4 different years. He is dedicated to both staff and customer interests and has the ability to motivate and retain staff.

Shaun O'Brien

Chief Executive Officer of Cquential

Joined Cquential in 2014

Shaun has **8 years' experience within the supply chain industry**. Shaun's primary responsibility is leading the strategic growth of Cquential and ensuring customers transform their warehouses into a key differentiator within their respective businesses.

The leadership team has a proven track record with over 130 years' collective experience in managing and growing technology businesses in emerging markets.
